 Pollen / / oz Propolis / / oz

## Comments

- 11/21/14 Mouse nest in #5. 8 with no foundation in #14. Irregular coverage on old foundations.
- 11/07/14 Return of robbers - interior feeder nearly empty.
- 11/01/14 1 guard, 1 forager - 1/2 qt capping wash in interior feeder - no sound, odor.
- 10/27/14 Several Am entering - no pollen seen - 2 hornets, several kinds of flies, cap debris at entrance - better odor.
- 10/18/14 Several dead at entrance; many flying around all sides of hive; aggressive - robbing in progress?
- 10/04/14 Guard bees at entrance, few robbers. Good sound - off-odor?
- 09/27/14 Guard bees at entrance, no sign of robbers. Good odor, good sound.
- 09/20/14 Fewer at entrance; robbers?; entrance reduced to 4"/-.
- 09/14/14 Fanning at entrance; dark orange pollen on several landings.
- 08/23/14 Good odor, adequate workers, pollen on approx 25% of landings.
- 07/26/14 #9 full, #5 added. Insulating top w/ feeder port installed.
- 03/21/14 Ample foragers.
- 03/14/14 Feeder empty, removed.
- 03/08/14 2nd feeder installed.
- 02/14/14 Feeder installed.
- 09/04/13 Excluder raised above brood boxes.
- 07/14/13 Super #16 added, supers tumbled.
